A high-demand business

That Is In **High Demand In Every Country** Worldwide

With your own COUNTERTRADE platform, **thousands of businesses will literally line up every day, BEGGING** to do business with you through your platform.

COUNTERTRADE is one type of business you can OPERATE in any country and from any country worldwide. It is a business in which you can have almost every small-scale, medium-scale, and large-scale business **RUSHING** to become your client.

The reason you can have **tens of thousands to hundreds of thousands of businesses become your clients FAST** is because you will be offering them unique, HIGH-DEMAND services that they need, but can only get through your COUNTERTRADE PLATFORM. They cannot find these services anywhere else.

For Example,

Imagine that through your own Countertrade Platform, **you can do the following for businesses:**

You can give businesses loans **without interest** and without collateral security.

You can help businesses to **reduce their expenses** by up to 90% without reducing their expenditure items.

You can help businesses to **reduce their taxes by up to 80% or more** (this particular benefit has to be disguised, otherwise you would have government agencies come after you with machine guns).

You can help businesses to **buy goods, services, properties,** and assets without using cash.

You can help businesses **sell off their excess goods, unsold inventory, or excess capacity** within 24 hours without doing fire sales or giving revenue-reducing discounts.

You can help banks and financial institutions to **recoup bad debts owed to them,** and even help banks recover toxic assets' full book value, instead of selling at market value, which would be far lower than their book value, which would in turn lead to losses and depletion of their capital.

You can help businesses to **import or export** without using cash.

You can help businesses **increase their sales, cashflow, and profits** dramatically overnight without any marketing expense.

You can help businesses to **expand to any level** without using cash.

You can help businesses to **offset any debt they owe** any individual or bank without using their cash reserve.

You can only render all of the services listed above after you have **set up your COUNTERTRADE properly.**

You can offer businesses many more breakthrough services, services that will literally blow the mind of any business owner that hears that you offer them.

The fact is that any serious business owner would **have to be insane not to RUSH to become a member** of your organization as soon as they hear about your COUNTERTRADE platform membership benefits.

the members of your COUNTERTRADE make purchases or sales of products and services.

Yet, **all or most of your roles will be executed on your behalf automatically** through the COUNTERTRADE platform.

Once you have done the initial work of referring and recruiting members to join your COUNTERTRADE, **you will start making money 24 hours a day, 7 days a week, 365 days a year**, whenever your members are trading and using your COUNTERTRADE platform, whether you are at work, on vacation, or asleep, without doing any other work. all at the same time, without additional investment.

You can broker business deals among tens of thousands of businesses automatically at the same time every day using your own COUNTERTRADE platform, **without even talking to any of them or lifting your finger, because the COUNTERTRADE platform for running your business is completely automated.**

The system brokers deals on your behalf and on behalf of all of its members.

A sales force **without expense** and **without commission**

In most businesses, when clients refer new clients to patronize another business, the major beneficiary of such referrals is usually the owner of the business to which clients are referred.

But in a COUNTERTRADE, every new client that joins the COUNTERTRADE **benefits the existing members as much as it does the exchange owner,** because new clients mean more new products and services for them to buy with trade credit.

Thus, every member of your exchange automatically becomes part of your sales and marketing force, **helping you to grow your COUNTERTRADE membership business,** revenue, and profit.

Hence, **all the members of your exchange are highly motivated to refer** new members to join the exchange because of the direct benefits to them.
