

MILLION DOLLAR COUNTERTRADER

Become a
Countertrader in 24 hours
and Start Making **\$1M Per Month,**
Even If You Have No Capital,
No Resources, and No Experience.

LET ME EXPLAIN

THE COUNTERTRADE BUSINESS MODEL WITH A SIMPLE EXAMPLE.

Sells steel, needs fuel

Let's say Robert is a business owner

who **manufactures and sells Seamless Steel Pipes and uses fuel** in their manufacturing process every day (This method works for practically ANY business and ANY product... as you'll soon see. But let's just use Seamless Steel Pipes as an example.) Because of his business, Robert is always on the lookout for potential customers who want to buy Seamless Steel Pipes.

Needs steel, Sells oil

Now,

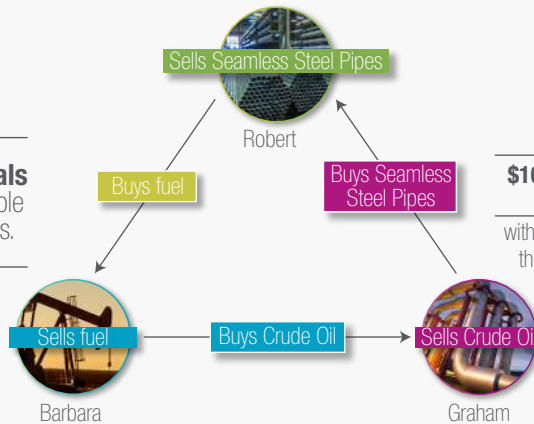

say you do a little research (I'll show you exactly how), and you find out Graham is the owner of a company that **needs Seamless Steel Pipes in their business operation and they sell crude oil.**

Sells fuel, needs oil

Let's say Barbara's refinery company

produces and sells fuel but imports crude oil every month.

They will each sell off \$10 million worth of their products every month for the next 12 months

with no risk and zero advertising cost because of the countertrade deals you'd create for them.

And you will earn a 10% commission from each

of their sales every month for the next month. If each of the three clients sells off \$10 million worth of products per month, that would be \$30 million sales combined.

Since your commission is 10% of their sales, it means that your monthly income from this first deal would be \$3 million per month, for the next 12 months.

HOW DO YOU STRIKE

THE COUNTERTRADE DEAL

THAT WILL GIVE YOU

\$3 MILLION PER MONTH,

FOR THE NEXT 12 MONTHS?

Simple.

You can strike three or more multilateral deals from this set up **in the following ways...**

STEP 1. SECURE DEAL #1

Go to Robert and propose to him that you would like to bring buyers to purchase \$10 million worth of his COMPANY'S Seamless Steel Pipes every month, on the condition that he will give you 10% commission as well as agree to start buying the fuel used in his company from your suppliers, at the same or better terms as their current supplier, if he signs a countertrade deal with you. Robert signs the deal with you.

STEP 2. SECURE DEAL #2

Go to Graham and propose to him that you would like to bring buyers to purchase \$10 million worth of his company's crude oil products every month, on the condition that he will give you 10% commission as well as agree to start buying the Seamless Steel Pipes used in his company every month, from your suppliers, at the same or better terms as their current supplier. Graham signs the deal with you.

STEP 3. SECURE DEAL #3

Go to Barbara and propose to her that you would like to bring buyers to purchase \$10 million worth of her company's fuel every month, on the condition that she will give you 10% commission as well as agree to start buying crude oil, from your suppliers at the same or better terms as their current supplier. Barbara signs the deal with you.

STEP 4. CONNECT ALL THE DEALS TOGETHER TO FORM A MULTILATERAL COUNTERTRADE DEAL.

Once you have all the deals secured up with signed contracts that guarantees successful sales for everyone and your share of the deal from each party, you can introduce and connect all the parties together to consummate the transactions as one multilateral countertrade deal.

STEP 5. SECURE YOUR PAYMENT WITH A TOLLGATE POSITION.

To guarantee the payment of your commission, you can use THE TOLLGATE POSITION to get the payment from each company to another company to all pass through your account. You simply take out your commission and send the rest to the company responsible for fulfilling the order. You will get the TOLLGATE POSITION in our program. I'm going to walk you through the TOLLGATE POSITION in step-by-step detail. From the above deals with the first three companies, you can easily make \$3 million from the three companies combined. This is just an example. The value of the deals could be more or less than \$3 million per month. But you get the point.

PLEASE NOTE:

It is not important for sales you bring to any company to be the exact amount of the products they must purchase from your suppliers.

As you can see

in the above illustration, from just one deal with one company, you can easily create endless number of interdependent deals with as many companies as you like.

YOU CAN **WORK ONCE-** **GET PAID FOR IT, FOREVER!**

You could make
**\$100,000; \$500,000;
\$1,000,000**

or more a month per deal and the revenues quickly mount up -- all while you're not there. Mostly without you personally having to do anything but set the deal up in the beginning.

You can start earning multiple streams of passive and residual income forever from dozens and dozens and dozens of different businesses -- without having to manage, work on them -- or even come in.

Control is better than ownership or management.

As you can see, this business is as simple and hassle-free as a business can be. You don't need any products, mailing list, website or anything like that... because all that stuff is already provided by Robert, Graham and Barbara.

And you don't have to deal with any kind of customer service, fulfillment, inventory, refunds or any of those business hassles... because all that stuff is handled by Robert, Graham and Barbara.

All you have to do,

is "set up" the deal between Robert, Graham and Barbara, and they take care of everything else for you... you just collect your check from each company involved in the countertrade deal EVERY MONTH.

Most importantly, this business creates a win-win-win-win situation for everyone involved, because...

Robert, Graham and Barbara

wins because each of their companies now sells \$10 million worth of their products every month, with no risk and zero advertising cost. This is in addition to the sales they currently make.

And of course,

YOU win because you get a fat "piece of the action" just for the simple "match-making" work of introducing Robert, Graham and Barbara to one another.

THIS IS JUST ONE **COUNTERTRADE MODEL**

The above example is just one model of countertrade. In the countertrade million program, you will be given step by step details of more than 100 different models and examples that you can implement.

HOW TO PUT YOURSELF IN A TOLLBOOTH POSITION OF BILLION DOLLAR

TRANSACTIONS WITHOUT INVESTING A DIME

As a Countertrader,
your only role will be to initiate,
structure and facilitate countertrade
deals between your clients.

One of the most powerful ways to structure deals for your clients, to guarantee and protect your passive income forever, is to put yourself in a tollbooth position where every transaction, including million dollar payments passes through you.

See the diagram below

for an illustration of how a tollbooth position is structured.

HOW CAN I BEST USE THIS COUNTERTRADE BUSINESS?

01

Need additional passive and residual income streams?

You can:

- **Set up** a few countertrade passive income profit centers working on them a few hours at night or weekends or on your holiday .
- **Create a substantial supplemental income** source to pay for lifestyle, vacations, retirement, children's education or any other significant expense pay for.
- **Get to play off dozens and dozens and dozens of different businesses** -- without having to manage, work on them -- or even come in.
- **Make \$100,000; \$500,000; \$1,000,000 a month** per deal and the revenues quickly mount up -- all while you're not there. Mostly without you personally having to do anything but set the deal up in the beginning.

Control is better than ownership or management.

03

Working for someone else?

- You can **introduce over 100 new profit centers** to your employer without them having to put up a dime and install yourself into a permanent toll position that pays you monthly forever---even if you leave their employ.

05

Put someone else in business?

- **You have an array of choices here.** You can have a family member do it with you keeping the major share of the profits. You can recruit associates, sales people, deal makers, facilitators, and minor partners and create as large and vast a passive income empire as your imagination and motivation can envision.

02

Say you own a business?

You can:

- **Get other caompanies to start buying your products** on a countertrade basis continuously.
- **Penetrate new international markets** automatically.
- **Add lucrative profit centers** to what you're already doing without having to do it yourself.
- **Take your products and services to numerous virgin markets** you've never even thought about reaching.

And so much more.

04

Do it, part-time?

Working just weekends evenings or a few days a month you should realistically engineer six to a dozen solid passive income profit centers every six months.

This is where the concept of mounds-of-money comes from. Every additional profit center you add builds your passive income pyramid.

After a year or two you've either built an **EMPIRE** of multiple streams and sources of passive income working 24/7 for you. At this point you have a choice to make.

- Stop there and enjoy a lucrative supplemental income.
- Continue adding passive profit centers every year and start doing it fulltime.
- Bring on associates "minority partners" and investors and shoot-for- the-moon
- build yourself a virtual passive income.

The options are infinite; the choice is totally yours.
